

SEMI-PERMANENT COLOR

DANGER JONES

A BETTER WAY TO DO COLOR

Vibrant Shades. Beautiful Fade. Easy Application. Long-Lasting.

NO AMMONIA • NO PPD • NO MEA • NO PARABENS

Over the last few years, the hair color industry is fraught with companies primarily focused on cutting costs. Their formulations & packaging are cheapened, & the fun & intrigue about color fades away.

Danger Jones is not about cutting costs. They are about increasing quality with their premium formulations & elevated packaging. The foundation of the brand was built upon building an artist community in the color industry.

A connected community creates color like nothing seen before. Coloring should be a fun form of artistic expression, & there is a better way to do it with Danger Jones.

CRUELTY-FREE

VEGAN

GLUTEN-FREE

FREQUENTLY ASKED QUESTIONS

WHAT MAKES DANGER JONES SEMI-PERMANENT DIFFERENT FROM OTHER BRANDS? Consistency & vibrancy: the unique creamy viscosity makes it easier to apply & saturate the hair. This means you use less product to get full coverage. All colors are highly pigmented which gives them a bold vibrancy to them.

DO I NEED TO USE A DEVELOPER/ACTIVATOR TO MIX THE COLORS? No. Danger Jones semi-permanent colors are used straight out of the tubes & applied directly to clean, dry hair.

HOW DO I USE THE "CLEAR"? You can use Clear in three ways: First, to add shine, dilute, or to blend from a bright color into blonde or lighter ends. When using to dilute deeper colors, start with Clear & then slowly add in the deeper color to pastelize. Second, to give shine & condition on all hair colors & textures. Thirdly, use Clear by itself to create a color melt transition from a deeper color into blonde or lighter ends.

CAN I MIX A BOND BUILDER INTO DANGER JONES SEMI-PERMANENT COLORS? Yes, you can add a liquid bond builder to the semi-permanent colors. Follow the mixing instructions of the bond builder.

CAN YOU MIX DANGER JONES SEMI-PERMANENT COLORS TOGETHER? Yes. All the colors are intermixable for customized color results. Be creative!

CAN I APPLY SEMI-PERMANENT COLORS TO WET HAIR? Yes, the semi-permanent colors can be applied to damp hair. However, keep in mind this may significantly decrease the brightness & color longevity.

HOW LONG SHOULD I WAIT TO WASH MY HAIR AFTER MY HAIR HAS BEEN COLORED? For maximum longevity, it is recommended to wait 2-4 days after a semi-permanent color service before shampooing.

WHAT HAPPENS IF I LEAVE SEMI-PERMANENT COLORS ON LONGER THAN 35 MINUTES? Nothing negative happens. It simply may start to dry & create a soft shell, making it slightly harder to rinse out of the hair.

HOW LONG CAN I EXPECT MY SEMI-PERMANENT COLOR TO LAST? People ask how long do they last, but it is better to ask "how long do they fade?"...because they're designed to fade. What makes these colors different is they fade into lighter pastel versions of themselves. Lighter tones can last up to 20 washes. Deeper tones can last up to 40 washes. This, of course, all depends on application & home care.

HOW CAN I EXTEND THE LIFE OF MY COLOR? Shampoo no more than twice a week using cool water & color-safe shampoo & conditioner. Shampoo your scalp/roots only & let the shampoo rinse over the rest of your hair. Dry shampoo is also recommended between washes. Avoid using hot water, chlorinated pools/hot tubs, ocean/lake water, & direct sunlight for extended periods of time. If you use well water, a shower filter will also prevent any mineral deposits in hair which can alter your color.

CLEAR | Pastelize the depth of any shade to create limitless tones.

BONDER INSIDE

Unlike most other toners on the market, Danger Jones toners contain a bonder which protects & strengthens the hair.

NON-DRYING

Unlike other liquid toners which can dry hair, Danger Jones toners leave the hair feeling healthy & hydrated.

INTENSE PIGMENT

Intensely pigmented for the most vibrant possible results, while limiting translucency.

CREAMIER CONSISTENCY

Creamy consistency provides maximum control during application & seamless blending of colors with no hard lines.

GEMLITES COLORWASH®

for traditional color shades

WHAT IS IT?

- An innovative line of patented color depositing, sulfate & paraben-free, acid balanced, vegan shampoos called Colorwash & conditioners called Colorditioners...Both under the brand names of Gem Lites & Viral: 11 shades in Gem Lites Colorwash, 11 Viral Colorwash, 11 shades for Gem Lites Colorditioner with BondFix, & 11 shades for Viral Colorditioner with BondFix.
- Maintains & boosts hair color brilliance. Stops color fade & extends all hair color services.
- BondFix is a Plex-based strengthening conditioner created to rebuild hydrogen, ionic & disulfide bonds to create healthier & shinier hair. Confirmed independent testing to make hair 3x stronger in just one use!
- Pioneering new salon color category called Colorposit...much like permanent, semi & demi-permanent color have been over the years.
- This premium product collection is unique & nothing similar works like it.

WHY SHOULD A SALON USE IT?

Four artistic & income reasons:

1. Allow hairdressers to do better color!...use at the sink to adjust, refine, define, tone & personalize each color look. unlimited color adjustments after all color services. Replenish color after relaxers & perms, adjust faded, uneven, unwanted color, or even tone foil highlights or balayage.
2. Create happier & more loyal clients!...clients can use Colorwash every other day at home to keep their color salon fresh, bright & shiny to look & feel better 365 days a year.
3. Build new client referrals with better looking "on the street" color clients between salon visits.
4. Make more money... Charge for Colorwash & Colorditioner services to build service income & simply recommend to use at home to build retail income.

WHY SHOULD SALON CLIENTS USE IT?

- To enjoy salon fresh color every day to look & feel better & receive more compliments!
- To solve the ongoing experience of "color fade" by replacing & replenishing lost color with every other shampoo or conditioner by "colorpositing" Gem Lites or Viral Colorwash or Colorditioner.
- Think of it as "color insurance" to preserve the client's investment by protecting from color fade. Keep hair color looking fresh, vibrant & healthy 365 days a year!
- Protects against color fade from regular use of shampoos & conditioners.
- Protects against sun & environmental damage.
- Protects against heat damage from flat irons & curling irons.

MAINTENANCE

Shinewash

Use as the alternating shampoo for Gem Lites® Colorwash® to manage vibrancy of haircolor tones.

Delicate cleansing with rich, hi-lather. Extra-gentle for color-treated hair. Adds nourishment for luxuriously-smooth texture & body.
244ml
14122

Bonditioner

Use as a pre-wash before cleansing. Conditions, moisturizes, nourishes & primes hair before cleansing. Best for hair that is dry, damaged, extremely porous or over-stressed.

Provides weightless moisturization from the inside out. Extra-gentle for color-treated hair.
244ml
14123

Secret Fix Anti-Tangler Styler

Adjusts to texture & porosity of all hair types. Ideal for use after using a Celeb Luxury color depositing shampoo or conditioner.

Provides humidity & frizz control for increased manageability. Leaves hair with smooth, satin feel. Provides heat protection from styling tools.
100ml
14124

Tips & Tricks

- Simply choose "gem" color on the front of the Gem Lites Colorwash bottle that is closest to desired color.
- Continuous use adds & replenishes color, preventing hair color from looking washed out or faded between color services.
- When your existing color formula is used over ends that are not washed out or faded, you get better color results. When you put color over good color, you get even better color!
- Use a generous amount of Gem Lites Colorwash in salon to ensure sufficient color.
- Distribute Colorwash product through hair before lathering.
- Use multiple applications of Gem Lites Colorwash for more color.
- Use Citrine pale blonde glo to dilute Gem Lites Colorwash colors.
- For copper or red that has lost depth, wash first with Brown Diamond Sunbrown Colorwash, followed by desired tone.

This will replenish the lost depth & prevent hair from looking hollow.

- Only use coppers or reds on blonde hair if extremely bright tones are desired.
- Only use Brown Tahitian pearl brassy red eliminator Colorwash on blonde hair if grey hair is desired.
- Leaving Colorwash product on the hair will not achieve more intense results.
- Multiple applications will achieve brighter or deeper results.
- Use Gem Lites Colorwash to neutralize chlorine green or well-water orange (visit www.celebluxury.com for directions).
- Blend hair color to extensions.
- A strand test is recommended to determine color results.
- When hair has ends that are lighter or very washed out, permed or straightened, it will take on more tone.

1 application for 3 x STRONGER HAIR.
With continued use at home makes hair stronger & stronger.

BondFix REBUILDS, REGENERATES & REPAIRS BLEACHED, LIGHTENED OR FRAGILE HAIR.

Viral Colorditioner with BondFix can be used as a color maintenance at-home product, conditioning tone booster, or conditioning color to achieve accurate, faster, more cost effective & creative results.

Viral Colorditioner products are designed to make all of your colors brighter, bolder, more vibrant & to take all of your creative color services to the next level.

12 shades - 244ml

WHY IT WORKS

BondFix - 3 x stronger hair:

- Rebuilds disulfide bonds, hydrogen & ionic bonds within the structure of the hair.
- Penetrates deep into hair fibers to heal & strengthen fragile, lightened hair from the inside out.
- Continual bond building with normal use.
- Bondurance: delivers durable conditioning, extreme detangling & reduces breakage for up to five washes.

WHAT IT DOES

- Colorposit: Deeper, more intense color with multiple applications, preventing hair from looking faded.
- SemiTemporary Color: the more often you use it, the less temporary it is.
- Toner: for foil highlights, special effects or balayage.
- Tone Booster: intensify or change the tone of lightened hair or any vivid or pastel color brand.

COLORDITIONER WITH BondFix

Celeb
LUXURY

Hybrid Color Deposit Conditioner with Built-In Bond Repair.
Manage your Color Expectations.
Maintain It. Refresh It. Create It.

01. GET STARTED

To choose your color, refer to swatch sheet on the back. Full color intensity: use on evenly pre-lightened, platinum hair. Add a hint of color: Less color intensity on light blonde to medium blonde hair or highlights.

03. MESSAGE

Work throughout the hair for even distribution.

05. RINSE

Rinse thoroughly until water runs clear.

02. APPLICATION

For best results apply product thoroughly on clean damp hair.

04. WAIT

To Maintain Color 2-5 min. To Refresh Color 5 min.
To Create Color 20 min on dry hair.

06. INTENSITY

Repeat steps 1-4 for more color intensity.

FULL COLOR INTENSITY.

A HINT OF COLOR - LESS COLOR INTENSITY.

For pre-lightened or color treated hair. Results may vary depending on porosity and/or condition of hair.

INTRODUCING COLOR + CLENDITIONER™ - A keratin-based sulfate & paraben-free conditioning cleanser that infuses hair strands with color with every wash. This versatile 3-in-1 product can be used on wet or dry hair to endlessly color, refresh & tone.

Color - Add stunning hues to find that old 'do! Hair that has been pre-lightened to a level 7 or higher. Can be left on for 3-20 minutes.

Refresh - Kick up that color in between salon services - Perfect for maintaining colors in between salon visits.

Fabulous as a toner, that's a right, a toner! Silver, Silver Blue, Honey & Platinum can all be used to tone unwanted pigments at the shampoo bowl.

To Achieve your desired tone... multiple applications may be necessary depending on the starting tone of the hair & the shade used.

Once you reach your desired tone... alternate with Clenditioner. Traditional shampoo will fade color.

To Remove Color + Clenditioner... we suggest using a clarifying shampoo or a direct dye remover for more stubborn tones.

Results may vary based on:

- The starting color of the hair
- Hair porosity
- If hair has been previously lightened

Hair at a level 7 or higher will have the best results. Virgin/grey hair may need more consecutive washes/longer processing time to achieve desired tone.

All formulas are vegan, gluten-free, sulfate-free, paraben-free & have not been tested on animals.

DAILY USE PRODUCTS

Purify Plus Lite

Has all the properties as Purify Plus but is designed for fine to medium hair & contains a weightless volumizing agent.
207ml
16225

Purify Plus

A leave-in conditioner designed for medium to coarse textured hair.

Helps detangle & smooth fly-aways, helps evade fading on recently colored hair.

Can also be used as a primer before any color service & makes for a great cutting lotion.

Locks in color with better retention, vibrancy & shine with Krystal Color Complex™.
207ml
16226

Preserve Plus Color Enhancing Anti-Humidity Treatment

Preserves & ignites color for a renewed look. Full frizz & humidity protection treatment without the product buildup. Once blown out, this leave-in leaves hair weightless & incredibly smooth.

A feather-light treatment with a heat-activated polymer base that repels water & improves the appearance of all color. Infused with keratin & coconut oil to keep shine levels sublime & hair silky-smooth. Results last up to 3 washes.

Simply spray to clean, damp hair & blow dry for best results.
207ml
16687

Clenditioner™

An everyday 2-in-1 non-lathering cleansing conditioner that cleanses the hair & scalp. Its Krystal Color Complex™ neutralizes harmful minerals found in tap & well water & prevents hard water discoloration in colored or non-colored hair. The low pH (level 4) & keratin base helps close the cuticle to lock in color & moisture.

355ml 16224
1 Litre 16228

Kerachroma Toning Drops

Turn any shampoo, conditioner or cream-based styling product into a toner!

Enhance pigments or neutralize unwanted tones while adding a boost of pigment & shine.

Add to any Color + Clenditioner to create endless custom cocktails.
60ml

Violet
16234

Gold
16235

Kerachroma Toning Drops

Turn any Shampoo, Conditioner, or Cream based styling products into a Toner! These new drops can be rinsed out or left in the hair!

Enhance pigments or neutralize unwanted tones while adding a boost of pigment and shine!

Giddy for Golden Tones?

Keratin infused to rebuild hair from the inside out. Packed with coconut and castor oils to provide hydration, strength and moisture while sealing damaged cuticles.

Add to any Color + Conditioner to create endless custom cocktails!

Violet and Golden Drop Toning Guide

COLOR TO START	MAKE IT SUBTLE		BRING IT DEEP		TAKE IT TO THE MAX	
	Leave in	Rinse Off	Leave in	Rinse Off	Leave in	Rinse Off
PLATINUM	1	1	1-2	1-3	1-3	2-4
LIGHT BLONDE	1-2	1-3	1-2	3-5	1-3	4-6
MEDIUM BLONDE	2-3	2-4	3-5	3-6	3-6	5-8
DARK BLONDE	3-4	3-5	5-8	5-8	5-9	7-10
BROWN WITH BLONDE STREAKS	4-6	4-6	5-8	6-10	5-9	7-10

Use 1-3 drops for subtle toning results or 4-10 for deeper toning. Ideal for cream based products, mix with product of your choice in the palm of your hand before applying to hair.

Conditioning Illuminating Color Gel

Demi-permanent gel coloring system with system with acid pH. Contains no ammonia, parabens, mineral oil or gluten. Natural & fantasy colors fully respecting the natural base & hair fiber for conditioning & illuminating results. An exclusive formula enhanced with caviar extract & fermented radish root to: Tone bleached or lightened hair; Revive & add reflects to cosmetic or natural color; Cover the first greys; Respect natural color without altering it; Restore the natural pH of the hair; Smooth hair by sealing the cuticles. Does not contain gluten.

- Mixing ratio: 1:1 with specific activator (E.g. 50g of color + 50g activator). We recommend using the specific applicator bottle.
- Application: On wet hair, to enhance or revive shades. Application time from 5 to 20 minutes depending on hair porosity. On dry hair: to neutralise or intensify the desired shade. Application time 20 minutes.
- Rinsing: Having reached the application time, rinse & wash with shampoo & Caviar Supreme post color conditioner.

Clear: Mixing ratio 1:1 with specific activator to illuminate shades. In mixture with all shades of the color chart: to modulate the tone, dilute shade intensity & to customize the final result.

NOTE: Mix Tone Supreme Color Gel only & exclusively with the specific activator.

**MORE THAN JUST
"CLEAR"!**

WITH TONE SUPREME CLEAR YOU CAN CREATE INCREDIBLE HAIR COLOR EFFECTS. Not only does TONE SUPREME CLEAR add gloss to natural reflections, mixing it with other colors can give different intensities to hair color to create infinite shades.

Use without any addition of any other substance. For exotic, vibrant colors, hair must be porous, bleached or tinted before application.

One Step Color Remover Back to Base - Take clients from roaring rainbows & pretty pastels back to their original blonde base. In just 30 minutes or less, this creamy, non-drip formula will remove existing direct dyes & take hair back to its pre-lightened blonde state.

Key ingredients: Kaolin Clay, the earth's natural cleanser that gently removes impurities without stripping natural oils. **Must be used on 5, 10 or 20 volume peroxide. Will not work on permanent color.**
45g
14482

Anti Bleed Spray
Prolong & protect color with a low pH formula that prevents color bleeding from the hair.

Apply after semi-permanent color service to lock in color & drastically reduce color leeching & bleeding. Color is left shiny & radiant for much longer. Color is protected for up to 10 extra washes with extended use.

Salt & sulfate-free. Vegan & cruelty-free. Soybean oil enhances shine. Can be used as a leave-in treatment to protect hair & color from environmental exposures.
250ml
16565

Hold Up Color Extending Shampoo
Specially formulated shampoo for colored hair. Revives color for longer lasting results. Salt & sulfate-free & vegan friendly. Suitable for all shades.
250ml
16147

REVOLUTIONARY SEMI-PERMANENT GEL HAIR COLOR FORMULA - 90ml

- Semi-translucent gel formula for a stained glass-like application
- Gentle acidic formula - helps to close the hair's cuticle
- Gel base aids in color placement accuracy
- Apply this color to damp hair - NOT SOAKING WET

Formulated to identify & bond with hair fibers. The color molecule mimics the hair fiber resulting in:

- Maximum color longevity of up to 40+ washes
 - True fade-on-tone results
 - Even distribution of color molecules, higher deposit & absorption of the dye
- From the leader in creative color since 1977, the long-awaited revolutionary formula

created exclusively for professionals!

NO DEVELOPER REQUIRED

- High quality ingredients
- 100% vegan, cruelty-free formula
- No ammonia, no resorcinol, no parabens, no phthalates, no PPD's, no gluten
- Vegan Lactic Acid: conditions, moisturizes & strengthens hair to prevent breakage
- Castor Seed Oil: smooths split ends & improves moisture retention to create shiny, healthier looking hair

OSMO IKON BLONDE ELEVATION

Colour Additive

Neutralising solutions with highly concentrated pure pigment to counteract all blonding lifting techniques. Ensure every client enjoys the best & cleanest lightening results. Depending on the level of the hair & its underlying tone (red, yellow or orange), the colorist will select the best Colour Additive to counteract it. Cocktailed with the lightening powder & developer to develop the tonal effect you want.

How to use: Each additive is designed to be mixed with Violet Lightening Powder & OSMO IKON Developer in the ratio: 3 pump additive to 10g powder & 30ml developer.

Tip: Colour Additives can be used to create very vibrant color without the need for specialized colored bleach. Add the additive to any bleach formula for bright color results. Recommended to use more than 3 pumps of additive to intensify the color results. 50ml

- Spatula

12354

Glitter Spray

Washes out with either shampoo or water. Spray into hair from approximately 10 inches. Use multiple colors to create different effects & styles.
75ml

COLORME - Professional Temporary Hair Colour

Accessorize your hair!

This means full, vibrant cover over dark hair, even level 1 hair, without bleaching. Color will not stain light hair. Color will not bleed nor stain level 9 hair, nor bleed during shampooing. Easy to apply, color smashing can be done in minutes.

HOW TO USE:

Using gloves, hold the hair & apply color liberally with provided wand. Once applied to the hair, blow dry. They brush through until hair feels soft & natural.

REMOVAL:

Shampoo out. On processed or light hair, color may require 2 or 3 shampoos. A single tube will provide about 15-20 "streaks" to medium length hair. Once dry, hair can touch other hair or clothing & will not bleed or rub off.
7.5ml

STANDS ARE AVAILABLE

ULTRA-CONCENTRATED PURE PIGMENTS

Liquid color that can be blended with any Superplex products for a color boost & reparative treatment. A range of 6 color pigments that can be mixed together for infinite color blends.

The Insta-color sensation that mixes creativity & technique in a versatile system to freely express all the shades of your own personality & mood, without any compromise.

Offers a unique & versatile system that allows stylists to customize hair color to any customer's desire, & integrate it in every single salon service. These pigments create an incredible opportunity for salons to express color creativity in infinite ways. Create made-to-order formulas with the exact color for each client, combining the pigment with any other carrier product.

Now, each client can bring home the hairdresser's creativity. Build the relationship with each client as they help design the color mix that perfectly suits them.

Color lasts 1-8 washes depending on service, processing time & the amount of pigment used.

Universal - Colors are made to be blended with any other Superplex product.

Versatile - Pigments can be mixed together to get the perfect color the stylist is looking for.

Innovative - Every client can have a personalized look to their exact taste or requirement.

Key benefits:

- Blend with any Superplex shampoo, conditioner, mask or styling product.
- Intensify color, maintain a shade, correct color, create a custom cocktail - the choice is yours.
- Revives color vibrancy & shine.
- Avoids color drifting.
- Plumps the hair with more bounce & volume.
- Keratin & Polyamino Sugar Condensate strengthens & repairs hair.

Customized Keratin Bonder Step 2 Conditioner

A customized combination conditioner for Uniblend Pure Pigments. Features 200ml of the Keratin Bonder Step 2 Conditioner as a base, ready for the addition of any customized pigment blend.

Combines color with the repairing & nourishing properties of Superplex's conditioner for stunning color & healthy hair.

Includes a space for the name of the consumer, giving the client a personalized touch. Mix up a custom color cocktail for each client after a color service for maintenance & refreshing at home.

200ml
16984

Cleanse, Color & Condition - then Chill.

Three crucial steps in the hair color refreshing process combined into one, without sacrificing any color vibrancy, silkiness or cleanliness.

Add striking colors, maintain vibrancy & improve shine with this color-depositing shampoo that greatly saves time & effort by combining three products into one formula.

Use it every day for full-throttle hair that never loses its edge, or only when you need some color touch-ups.

Not only does this shampoo deposit color, it helps strengthen, repair & protect the hair so color really pops. Cleanse away impurities & buildup getting in the way of amazing color.

After depositing color, the hair is conditioned & left shiny, with a protective barrier that prolongs color.
250ml

Key Ingredients:

- Keratin Amino Acids - for better moisture delivery deep into the hair structure to repair damage, improve shine & increase volume.
- Verbascum Flower Extract - natural emollient & astringent that removes tangles for better styling, & softens the hair for a better feel.
- Hydrolyzed Quinoa - packed with amino acids for maximum protein & color delivery, leaving the hair much more vibrant & better conditioned.

How it Works:

1. Cationic amino acids & intense color pigments anchor to the cuticle for maximum deposit & vibrancy.
2. Anionic amino acids create a scaffold around the hair to protect the strands & color. This creates a protective barrier that will make color last longer, while improving shine.
3. Helps to replenish lost moisture to retain hair color for beautiful hair.
