OSMO IKON

Blonde Elevation Premium Violet Lightening Powder with Bond Builder

Delivers 9+ levels of lift with super-clean results. Bond Builder provides faster results & better hair condition. Leaves hair soft, silky & detangled. Bond Builder keeps the hair's bonds intact during bleaching, meaning you can use a lower developer. Hair is kept conditioned & detangled with minimal breakage. Violet pigments neutralize brassy tones, giving more control. Ideal for use both on & off the scalp. 100% vegan friendly & dust-free formula.

How to use: use on its own either on or off the scalp, or combine with Freehand Clay Additive for balayage & all open air techniques. Tip: combine powder with a Colour Additive & OSMO IKON Developer for an extra boost of color & to neutralize unwanted undertones.

Blonde Elevation Freehand Clay Additive with Kaolin Clay
A thickening clay for freehand blanding & all other open air lightening techniques. Features mineral kaolin clay that thickens the Violet Lightening Powder. No need for foils, meché or film - just the freedom & creativity to brush in blonde.

Kaolin enables the hair to remain encapsulated & wet throughout the lightening process. Prevents the bleach from swelling - so no bleach or color bleed, or seepage, & the product will not dry out or flake.

The perfect lightener for all balayage enthusiasts. When mixed with Violet Lightening Powder, the mixture delivers amazing 9+ levels of lift.
